ARE YOU KEEPING UP WITH YOUR RESOLUTIONS?

The first month of the year is over! Are you fulfilling the promises you made on new year's eve to yourself? If the answer is yes, well done! If it is not, we have a few pointers to help you out.

1-Weigh it out: Write and read out the pros and cons of your resolution once more.

2-Write it: Plan accordingly and track your progress

3-Stick to your decision: Making a new habit takes 21 days, let your day 1 start here!

4-Beating yourself for not meeting your goal is not the way to go!

5-Reward yourself occasionally: if you are sworn to eat healthily, give yourself a treat of chocolate once in a while

6-Always keep trying: If you feel like you have already lost by mid-Feb, it is never too late to start committing all the 24 hours you have!

♥ DIY A VALENTINE GIFT BASKET FOR HER

Adding photos, memories, and her favorite things gives it that personal touch, better than any store-bought gift.

♥ SPA TREATMENT AT HOME

Just gift her a day of relaxation. Get her, those bath bombs she loves, and just have a stress-free day. Pay attention to everything!

♥ A DINNER DATE

If you know a restaurant that she absolutely loves, do not hesitate to book a table right away. You can even order in and settle down for a movie night instead.

Romantic Valentin Movies TO WATCH WITH YOUR PARTNER

Here's a checklist to binge-worthy for the day!

A heartwarming indie film revolving around Hugh Dancy and Rose Byrne will make you believe that love conquers all.

▼ FALLING INN LOVE:

Christina Miller wins an inn in a contest. Will she win love as well?

▼ 50 FIRST DATES

Lucy has short-term memory but that doesn't stop Henry from recreating the perfect first date every time.

A new age Cinderella tale with romance brewing between a wealthy businessman and a prostitute.

▼ A STAR IS BORN:

Lady gaga ad Bradley Cooper star in the story of two people brought together by talent and torn apart by love.

Anti-Valentine Movies FOR SOMEONE WITH NO VALENTINE!

▼ GERALD'S GAME:

2017 American Horror-thriller Movie to make your trust issues sky-rocket through the roof.

▼ SECRET OBSESSION:

What happens when you wake up after an accident with your husband after losing all your memories? Also, your husband is not actually your husband.

▼ GONE GIRL:

Based on a book of the same name, this psychological thriller movie depicts the crumbling of a "perfect marriage" of Nick and Amy after the latter suddenly goes missing.

▼ THE LOVE WITCH:

A murderous seductress, a modern-day witch with a love potion. That's all we got to say!

▼ BERLIN SYNDROME:

You will never ever even think of a one-night stand after this. Be glad you are only involved with yourself.

▼ LEGALLY BLONDE:

There is always someone who thinks you are not enough, well, it is time to let your inner Elle Woods shine and prove them wrong

▼ THE LOBSTER:
